To the extent possible under law, the editors have waived all copyright and related or neighboring rights to this work. In addition, as of 15 May 2019, the editors have made this specification available under the Open Web Foundation Agreement Version 1.0, which is available at http://www.openwebfoundation.org/license.html. Parts of this work may be from another specification document. If so, those parts are instead covered by the license of that specification document.

Abstract

This specification describes the interactions between Read/Write Linked Data apps and servers.
Data is connected more strongly to the users than the service providers.
